Brushville January 21st 1853

My Dear Friend

I received yours of the 13 some time a go and as there was nothing in it that required immediate attention I have defer'd answering it un till now, you say that my letter was worthy of my freedom loving spirit I have no doubt but that I am ever surrounded by theas freedom loving spirits that have left the body, I would to God I was as well surrounded by freedom loveing spirits that are in the body, but dear Garison we must wate for their conversion and I find that I cannot do but verry little in our one wells and in our one time, but when I follow spiritual direction I find that I have never failed of accomplishing wat I have undertaken, Well now my dear Garison I hope that you will be prompt and tell me, your ever loveing friend, the needs and wants of the Liberator for I can assheure you that I didnot make that promis to you of indemnifying you for aney pecunary loss that the paper might sustane in consequence of publishing those letters hastely or rashly, but after mature deliberation I not only reiterate the same that I did before that is five hundred but I now solamly pledg five thousand dollars to sustain a free press on the principals of the Liberator if need be, The five dollars I sent you I wish you to credit to the accounpt of William Revels and Henry Hicks jointly that is half to each, they are verry industrious prudent coloured men with large families they would not take aney other paper in the United Stats

every cent they pay for- thes comes out of their hard earnings and small Gaveings, but they think that the Liberature is of priceless value, so you sea dear Garrison the value that we all set on your indefatcicable labour and independant courase, pleas send a receipt to each of them for two dollars and fifty cents and tell them in it wen thare subcription expires and oblige yoeer freend George Doughty,

Oh my dear Garison had you oanly received the spereteual communications that I have you would then know how to prise them and obey there directions, I hav no doubt but there is a mighty revolution at hand, If the people is oanly prepared for it all will be accomplished peasobly are in order, in preparing the publick mind to receive theas spereteual truths how large a share falls to you and to the Liberator I leav for you to judge if you and yoeer labour proves succesfull in keeping peple in order I think that proves that your are one of the benefactors of man,

I had a letter some time a go from Henry C Wright he stated that he expected to come on east this winter and he thought of caling on and makeing a visit at my house in Febreuary and I hav written on to know wether he and Elizabeth P French would not come on to gather if they do I hope that they can be able to make a running tuere on east and if they can I think I shal accompany them and per haps we may be in Boston and if we do I should like to call and sea you yoers as ever in the cause of truth and progriss

George Doughty
